What Your PAC Does for You

PLANET PAC helps the green industry earn respect in the nation's legislative corridors. Your donations help:

- Elect pro-green industry congressional candidates who will listen to our concerns.
- Make a difference by positioning the green industry so that it can influence policy.
- Gain access to key legislators so that PLANET's lobbyists can convince them to support the green industry.
- Support PLANET's grassroots campaigns, such as contacting legislators via letters and e-mail, holding in-district meetings, and lobbying constituents.

"PACs are essential, effective mechanisms for supporting friendly candidates in both political parties who share PLANET's common values and beliefs. PACs allow us to help members of Congress so that they can help PLANET while serving in Congress. PAC contributions really do create access and help for our friends and provide an outstanding opportunity to educate members of Congress and their staffs. Groups with PACs are far more effective in creating access to important congressional members in key committees in the Republican and Democratic parties."
